for the scope

Periodical Inspection
(for Ropes Courses built before March 2008)

The ropes course installation was built before the publication of EN 15567 in March 2008. ERCA does not apply EN 15567 retrospectively. The installation may not be consistent with all ERCA Standards; however, an ERCA accredited inspector considers it to be fit for purpose.

The audit is documented in a report by
